

Business Solution Polyclinic

INDUSTRY INSTITUTE

*Solving Real Industry Problems
Building Freshers With Experience*

About Initiative

The Business Solution Polyclinic Program empowers industries by training and engaging young academic graduates as interns. It aids in identifying, documenting, and digitizing challenges, needs, and wants. Through this program, interns become adept problem solvers, benefiting both businesses and interns, and addressing industry needs effectively.

Why Participate?

Participation in the Program benefits both industries and institutes. Industries gain fresh perspectives and innovative solutions to their challenges, while institutes enhance students' practical skills and real-world experience. Collaboration fosters mutual growth, addresses industry needs, and prepares students for professional success.
